REMARKS TO TEACHERS.

This Catalogue indicates the grading of your pupils for the ensuing year. Pupils who through sickness, or for good cause, did not make their examination in the May examination may upon the recommendation of their teacher, be allowed to work in the higher grade until the last week of October, at which time all such pupils must take an examination submitted by the principal or teacher of the school. If the pupil makes an average of 70 per cent. and has attended school 70 per cent. of the time from the beginning of the term to the time of the examination, said pupil must be promoted into the higher grade. Should there be any promotions in October mark the same in your Register and in your Catalogue report at the close of the year.

In making out your Catalogue report be guided by the following directions:

First—Write the name of your school.

Second—Should there be any pupils attending your school who have graduated therefrom at any time, class them as "Supplementary Course."

Begin with the highest class you teach and arrange in their respective grades, in **single columns**, the names of all pupils enrolled for the entire year.

Be careful to have the names correctly spelled and written in alphabetical order, the surname being placed first.

Place an **asterisk** * **in red ink** after the name of each pupil regularly promoted in May; **L** signifies left the school not intending to return; **Ab** signifies absent at the time of the May examination: = indicates promoted in October, and shows that a pupil has been permitted to recite in the next higher grade on probation and has successfully passed the October examination for that grade and is therefore promoted into it; †means deceased. These marks and notes should be made in **Red Ink.** Write on only one side of the paper and number the pages. Underscore the name of school and of grades. In schools of one department sign your name as teacher. In schools of two or more departments, do not sign your catalogue report. The Principal will arrange the reports and sign as Principal and give the names of the Assistants.

The following is designed to aid you in preparing a correct report:

LAUREL GROVE.
